The Truck Store  
Att: Jaimie Avis

Dear Jaimie,

Florida Highway Products would like to thank The Truck Store for the professional help and follow-up you afforded us while building our four rack trucks. The quality of workmanship, planning, and execution was in our eyes well done. Your input and questions regarding design helped us build a better truck. The Truck Store's in house fabricators worked as though they were making their own personal vehicle. We salute you and thank you. We certainly will do business together again in the future.
